

# no two minds

## INFORMATION FOR CLINICIANS

No Two Minds offers **neuropsychological assessment, cognitive intervention/strategies** and **psychological support** for clients with cognitive, neurodevelopmental, and neurological concerns.

We accept self-referrals and welcome referrals from GPs, geriatricians, psychiatrists and allied clinicians.

### NEUROPSYCHOLOGICAL ASSESSMENT

#### Common referrals:

- **Autism** and **ADHD** assessments
- Diagnostic clarification
- **Memory** and **cognitive** concerns including **dementia**
- Traumatic **brain injury** & concussion, stroke, brain tumour/cancer, multiple sclerosis and other neurological conditions
- Return to work or study planning
- NDIS evidence

### ONGOING SUPPORT

We offer practical and psychological support available as stand-alone or following assessment.

#### Cognitive strategies & rehabilitation

Practical, tailored support including:

- Executive functioning strategies
- Memory and attention supports
- Fatigue and routine management
- Workplace/study recommendations
- Carer and family guidance

#### Psychological therapy

- Adjustment, identity, anxiety, and grief following diagnosis or injury

**Highett:** 5 Beaumaris Parade

**Telehealth**

## FUNDING & REBATES — A QUICK GUIDE

**Neuropsychological assessment** is not typically covered by Medicare. For individuals under 25, some autism diagnostic appointments may be covered under the Complex Neurodevelopmental Disorder Services initiative.

**Ongoing therapy and treatment.** Rebates are available for therapy and treatment sessions through Medicare's Better Access to Mental Health Care (Item 80110) and Chronic Disease Management plans. Private health insurance may also cover psychological treatment.

**Third-party funding.** We also see clients funded by the Transport Accident Commission (TAC) and the National Disability Insurance Scheme (NDIS). Self-managed or plan-managed NDIS funding may cover neuropsychology services/assessment under Capacity Building, Improved Daily Living.

Fees available at: [www.NoTwoMinds.com.au](http://www.NoTwoMinds.com.au)

Individuals can self-refer for most assessments and support. Memory and ageing reviews do require a referral (letter or via online form) from a geriatrician or GP.
